TELESIS Corporation Awarded the ICT21 Contract by the Food and Drug Administration

ROCKVILLE, MD—October 2, 2008—TELESIS Corporation, a Rockville, MD based company announced today that it has been selected as one of the Prime Contractors for the ICT21 Contract. This is a multiple award, IDIQ-type contract with a ten (10) year ordering period and a ceiling value of \$2.5Billion. This effort supports the framework for the overall Food and Drug Administration (FDA) Information and Computing Technologies for the 21st Century initiative. Through this contract TELESIS will offer information technology support, goods, and services and will support the FDA with the best-of-breed solutions for an operating infrastructure that supports a diverse set of information support and services. TELESIS will offer an Agency-wide computing platform for the 21st century that is efficient, effective, scalable, flexible, and reliable and meets the FDA's business requirements to enhance the capabilities of the IT environment and develop and implement new standard operational procedures and processes.
